

# WESTERN ILLINOIS THRESHERS

July 2, 2020

For 53 years we have worked to provide the public with a safe environment to witness and learn our agricultural heritage. This normally focused around the dangers associated with the show displays and serving meals in accordance with Health Department guidelines. Now, in 2020, we were faced with the COVID-19 pandemic.

To continue to provide a safe environment for those in attendance, our numerous volunteers, civic and sports groups that help throughout the show, we would need to adhere to numerous safety protocols.

The Western Illinois Threshers Board of Directors met for a special meeting on Thursday, July 2 to discuss viable options to hold the 2020 show in such a manner that would provide everyone with a safe environment and be within the restrictions imposed by the Governor of Illinois. Unfortunately we were left with little choice but to cancel our Western Illinois Threshers show for 2020.

We look forward to making more memories with you at our 2021 show to be held August 6,7,8.
